

MotherEarth™

2% Py Contact Insecticide

Whitmire Micro-Gen introduces an effective fast-acting pyrethrum aerosol for quick kill of crawling and flying insects.

MotherEarth 2% Py is formulated with the proven active ingredient pyrethrins, but without synergists. Using Whitmire Micro-Gen's aerosol technology, MotherEarth 2% Py is designed for Crack & Crevice®, spot and space treatments. It is labeled for a wide range of pests including ants, bedbugs, bees, booklice, centipedes, clothes moths, cluster flies, cockroaches, fleas, fruit flies, house flies, silverfish, spiders, ticks, wasps and other crawling and flying insects.

The botanical active ingredient, pyrethrins, is derived from chrysanthemum flowers. Pyrethrum has been used for thousands of years to kill and control a wide range of pests. In addition to its quick killing power, it also flushes insects from their hiding places to highlight problem areas.

Beneficial features for both you and your customers

- Uses the botanical insecticide, pyrethrins, with no synergists
- Quick kill of both crawling and flying insects
- Great for Crack & Crevice®, spot and space treatments
